

<h2 style="text-align: center;">Non-Return Valve</h2>	<h2 style="text-align: center;">Identify Data</h2>		
<p>Our product is designed for a goal-oriented one-way valve system which is using the forced flow, as well as prevent the return of the medium.</p> 	Rev. 3. 05/16		
	Product Group Type	BV BRV-BV	
	Application Area Oil, chemical, gas and energy plants, containers, highly inflammable and explosive facilities systems ensuring.		
	General Data It can be integrated into the system with threaded or flanged connections, assembled plate on a device with a quality certificate.		
Engineering Data Connection Sizes: DN6-DN200 Pressure Grades: 20mBar +100mBar Operating Temperature: -40°C...+120°C Material Quality: - Carbon Steel(1.0570) - Stainless Steel (1.4301;1.4404;1.4571) - Other (Aluminium Alloys)
